

GENERAL PRODUCT

SLIXTM

Heavy-Duty Degreaser

FEATURES/BENEFITS

Features

Phosphate free
Biodegradable
Free of petroleum solvents
Cleans heaviest deposits of grease and oil
No flash point
No odor
Authorized by USDA for use in federally inspected meat and poultry plants

Benefits

Easier to treat than phosphated cleaners
Safer to user
Saves time with difficult cleaning
Pleasant to use
Restores appearance of floors and equipment

Slx is available in 6 gallon pails, 55 gallon drums, totes and bulk deliveries.

Description

Slx is considered a near ideal industrial degreaser. *Slx* will cut through the toughest petroleum-based soils, such as crude, bunker C and rolling oils and thick gear box lubes. In particular, cement floors and pump pads can be easily cleaned and whitened to a pleasing appearance. *Slx* can also be used for the heaviest soils in locker rooms, machinery, transportation equipment and oil storage equipment. *Slx* combines the highest quality detergents with special wetting agents to form a fast-acting cleaner that has hundreds of uses.

Directions for Use

For Normal Cleaning Applications:

Heavily soiled floors: Apply undiluted, brush with stiff bristle brush, rinse.

General floors: Mix 1:10 to 1:20 with water, mop or brush, rinse. Or use at 1:30 to 1:40 in automatic floor scrubbers.

Machinery: Mix 1:10 to 1:30, spray on, brush if necessary, rinse.

Steam cleaning: Mix 1:20 to 1:40. Pre-wet surface.

Transportation equipment: Mix 1:20. Wash from bottom up. Rinse from top down.

IMPORTANT: Before using SLIX, always be sure to read and follow precautions and directions for use appearing on the product container label and MSDS.
