

GENERAL PRODUCT

TPC SOLVENT™

Precision Cleaning Solvent Degreaser

FEATURES/BENEFITS

Features

- Low odor
- Dries with no residue
- USDA authorized
- High dielectric voltage
- Non-chlorinated
- Flashpoint 130°F TCC
- 300 PPM TLV
- Meets Federal Spec. P-D-680 Type I
- Low vapor pressure
- Safe on all metals

Benefits

- More pleasant to work with
- Higher quality cleaning
- Safer than most solvents
- Multiple uses

TPC Solvent is available in 6 gallon pails, 55 gallon drums, totes, bulk and aerosol cans.

Description

TPC Solvent is a waterless solvent developed for use in precision cleaning operations. It is used to remove cutting oils, grease, mold release, finger-prints and other similar soils.

TPC Solvent is an excellent replacement for chlorinated solvents, kerosene and mineral spirits.

TPC Solvent is authorized by USDA for use only in non-processing plants.

Directions for Use

TPC Solvent is ideal for large open dip or soak tank operations, or manual production line degreasing and bench work involving coarse spray or wipe operations. Use *TPC Solvent* at room temperature for odorless and effective removal of oils, greases, asphalt, etc.

Typical Uses

- Clean electrical motors
- Wipe down of precision equipment
- Bench top cleaning in maintenance shops
- Electrical contact and bus bar cleaning
- Degreasing bearings
- Adhesive carrier
- Prepaint wipedown of metal surfaces
- Wipe off cleaning of plastic molds
- General parts washing

Note:

Before using *TPC Solvent*, food products and packaging materials must be removed from the room or carefully and effectively protected from contamination. After using, all surfaces must be thoroughly rinsed with potable water.

IMPORTANT: Before using *TPC SOLVENT*, always be sure to read and follow warnings and directions for use appearing on the product container label, MSDS and applicable current technical manual. (May04)
