

PENSOLV™ L1060

Highly Refined Solvent Degreaser

FEATURES/BENEFITS

Features

- High 160°F flash point
- Very low odor
- Free of chlorinates
- Dries to negligible residue
- High dielectric breakdown voltage

Benefits

- Improved safety
- Economical
- More worker comfort
- Excellent for electrical uses

Pensolv L1060 is available in 6 gallon pails, 55 gallon drums, totes and bulk deliveries.

Description

Pensolv L1060 is an excellent product choice for a safer and more pleasant to use cleaning solvent.

Pensolv L1060 is a specially refined solvent where many undesirable characteristics of solvent cleaners are eliminated.

Pensolv L1060 quickly degreases bearings, mill housings, work rolls, motors and any metal part where solvent cleaning is needed.

(See *Solvent Cleaning Products Guide* for more information)

Typical Uses (also see product label)

Pensolv L1060 is a clear solvent which should be used full strength. The preferred method of applying *Pensolv L1060* is by non-atomizing spray. Other application methods include brushing it on or dipping parts in the solvent. After application and a brief soaking period, blow surfaces dry with compressed air. No water rinsing is required.

For Electrical Cleaning:

All power must be shut off or disconnected and the part thoroughly dried before powering up.

IMPORTANT: Before using PENSOLV L1060, always be sure to read and follow precautions and directions for use appearing on the product container label and MSDS. (Mar04)
