### Description

*Penetone CBO1A* has been specifically formulated for paper machine boilouts and felt/wire cleaning. *Penetone CBO1A* is an excellent cleaner for all soils encountered in paper mill systems. It readily penetrates, disperses, and removes deposits such as resin, dye, size, pigments, slime, clay, starch and fibers.

### Directions for Use

*Penetone CBO1A* may be used for general cleaning operations by manual, soak, circulation, pressure washing, or foam application techniques. Dilute one part product with 10-200 parts water depending on the degree of soiling.

**IMPORTANT:** Before using *Penetone CBO1A*, always be sure to read and follow warnings and directions for use appearing on the product container label and MSDS.
