

GENERAL PRODUCT

NV-80-OSTM

Biodegradable Solvent Emulsion Degreaser

FEATURES/BENEFITS

Features

Safe on all metals
Heat not required
Removes the heaviest deposits
Works fast
Water rinsable
Increased viscosity
Pleasant Pine Odor

Benefits

Versatility
Saves energy
Reduces labor in cleaning
Clings to vertical surfaces
Biodegradable

NV-80-OS is available in 6 gallon pails, 55 gallon drums, totes and bulk deliveries.

Description

NV-80-OS is a unique cleaning product containing solvent, detergents, and emulsifiers that will out perform most liquid alkaline detergents in the heaviest cleaning applications.

NV-80-OS should be used in tough industrial environments such as; aluminum mills, steel mills, paper mills, asphalt application and equipment rebuilding shops to effectively remove greases and tars from production equipment, floors, castings, cellars and tools.

Typical Use Directions (also refer to product label)

Heavy Equipment, Oil Cellars, Rolling Mills

Manual Operations: Dilute concentrate with water at 1:4 to 1:10. Wipe on, wipe off. Wear neoprene gloves.

Pressure Spray Methods: Dilute concentrate with water at 1:20. Use a coarse spray at long distance. Do not fine mist this product.

Tank Immersion Method: Mix concentrate with water at 1:4 to 1:10 depending on the degree of soil to be removed.

For extremely heavily soiled surfaces, use *NV-80-OS* concentrated or diluted 1:1 with mineral spirits. When applied concentrated or mixed 1:1, the product is somewhat viscous and is ideally suited for cleaning upright surfaces. *NV-80-OS* will cling to the surface until rinsed off.

Note: Diluted product will split out oil/greases.

IMPORTANT: Before using *NV-80-OS*, always be sure to read and follow precautions and directions for use appearing on the product container label and MSDS. (Sep06)
