Description

Penair M-3616 is a solvent emulsion type cleaning compound formulated to meet the requirements of specification MIL-C-43616C, Class 1. It is suitable for use on both painted and unpainted surfaces from which it will remove the soils usually associated with day-to-day flying operations.

Typical Use Directions (also see product label)

Rinse aircraft with fresh water on all areas to be cleaned. Apply *Penair M-3616* by coarse spray, foam generator, mop, sponge, or brush at dilution ratios of 1:4 to 1:16 parts water, depending on the application and soils involved (See below). After allowing a 5 to 10 minute dwell time, scrub with a brush or mop. Rinse thoroughly with a stream of water.

For Heavy Duty Cleaning: Dilute 1 part *Penair M-3616* with 4 parts water.

For Normal Cleaning: Dilute 1 part *Penair M-3616* with 9 parts water.

For Light Duty Cleaning: Dilute 1 part *Penair M-3616* with 16 parts water.

IMPORTANT: Always follow the instructions contained in the appropriate service/technical manuals prior to cleaning.

IMPORTANT: Before using *Penair M-3616*, always be sure to read and follow warnings and directions for use appearing on the product container label and MSDS.
