

# PENAIR® M5575

## Exterior Aircraft Cleaner (Gel Type)

### FEATURES/BENEFITS

#### Features

Thixotropic gel  
Heavy-duty solvent  
Free rinsing  
QPL to MIL-C-85570B Type V  
CSD-1 approved

#### Benefits

Increased dwell time  
Excellent cleaning performance  
Leaves a residue-free surface  
Eliminates streaking  
Non-corrosive to aircraft metals

*Penair M5575* is available in 6 gallon pails, 55 gallon drums, totes and bulk deliveries.

### Description

*Penair M5575* is a state-of-the-art, heavy-duty cleaner that has been thickened in order to cling to vertical and overhead surfaces. The thixotropic properties of *Penair M5575* allow it to be applied directly to soiled surfaces without product runoff. This allows for an increased contact time, which results in better cleaning performance, decreased labor and reduced man-hour requirements. *Penair M5575* can be used in place of P-D-680 in wheel wells, exhaust tracks and wing flap areas of aircraft. *Penair M5575* will not harm aircraft paints and is non-corrosive to aerospace metals.

### Directions for Use

Apply *Penair M5575* undiluted using pressure spray, foam equipment, or bucket and brush. Allow product to dwell 10 to 30 minutes depending on the nature of the soil being removed, then thoroughly rinse with water.

**IMPORTANT:** Before using *PENAIR M5575*, always be sure to read and follow warnings and directions for use appearing on the product container label, MSDS and applicable current technical manual. (Jun04)
