

## GENERAL PRODUCT

# PENSOLV™ L805

## CFC-Free Precision Solvent Cleaner

### FEATURES/BENEFITS

#### Features

- Non-ozone depleting
- Free of chlorinates and CFC's
- Pleasant odor
- Very low residue
- Excellent flux remover
- Excellent degreaser

#### Benefits

- Environmentally improved
- Fast cleaning
- Multiple uses

*Pensolv L805* is available in 24 x 13 oz. aerosol and pump spray, 6 gallon pails, 55 gallon drums, totes and bulk deliveries.

### Description

*Pensolv L805* was developed as a replacement for 1,1,1-trichloroethane and exhibits cleaning performance at the same level as 1,1,1. *Pensolv L805* dissolves grease, fingerprints, oils and flux typically removed by solvent cleaners. *Pensolv L805* has a closed cup flash point of 105°F. Dry time is 5-10 minutes.

### Directions For Use

**By Immersion:** Immerse parts for several minutes, agitate as needed, remove parts and drain solvent back into tank. Air dry.

**By Spray:** Spray on, brush as needed, rinse with *Pensolv L805*.

**Caution:** Electrical equipment should be off or not operating when cleaning. Do not restart equipment until thoroughly dry. Test on plastics and elastomers.

**IMPORTANT:** Before using *PENSOLV L805*, always be sure to read and follow warnings and directions for use appearing on the product container label and MSDS.
