

PENSOLV™ L1002

Solvent Degreaser/Cleaner

FEATURES/BENEFITS

Flash Point 103° F TCC

Pleasant odor

No residue

Very low aromatic content

Fast cleaning

Good evaporation

Environmentally improved

Complies with many solvent specifications

Multiple uses

Pensolv L1002 is available in 55 gallon drums.
Inquire about availability in other packages.

Description

Pensolv L1002 was developed as an environmentally improved replacement for mineral spirits. *Pensolv L1002* lacks the aromatic hydrocarbons that are often present in other similar products. The levels are less than 0.2% total aromatics, a value that yield regulatory benefits without affecting cleaning performance. *Pensolv L1002* is classified as non-photochemically reactive and is not reportable under SARA Title III Section 313. *Pensolv L1002* meets the requirements of Federal Specification P-D-680 Type I, MIL-PRF-680 Type I, ASTM D235 Type IV, Class C and FDA 21 CFR172.884 and 178.3650.

Use Directions

General cleaning: *Pensolv L1002* is to be used full strength. It can be applied by non-atomizing coarse spray. Other application methods may be used, including brushing it on or dipping parts into the solvent. After application and a brief soaking period, blow surfaces dry with compressed air. No water rinse is needed.

NOTE: Use full strength; do not dilute with water. Safe for use on all metals. May be used on some plastics. *Note: This product may craze or soften certain plastics and may affect certain paints. Pretest on part to be cleaned before use. If this product is used to clean electrical equipment such as motors, junction boxes, contacts, etc., all sources of electricity must be disconnected before cleaning.*

IMPORTANT: Before using *Pensolv L1002*, always be sure to read and follow warnings and directions for use appearing on the product container label and MSDS.
