

# PENPOWER™ 226H

ALL PURPOSE POWDERED CLEANER AND DEGREASER

~~BULLETIN BULLETIN BULLETIN BULLETIN~~

**DESCRIPTION:**

PENPOWER 226H is a biodegradable, nonphosphated hard surface cleaner and degreaser that works effectively against a wide variety of soils. It is noncaustic and odorless. PENPOWER 226H contains special wetting agents that reach into surface pores to lift out grease-type and other soils and float them away. Loosened dirt does not redeposit because it is emulsified and completely rinses away.

**ADVANTAGES:**

- Ecologically Acceptable — No Phosphates — Biodegradable
- Safe on All Washable Surfaces & Metals (May attack certain aluminum alloys)
- Dissolves Readily in Hot or Cold, Soft or Hard Water
- Dedusted — Pleasant to Use
- Powerful, But Contains No Caustic or Acidic Ingredients
- Accelerated Cleaning Action — Works Quickly to Remove Soils
- Economical to Use

**HOW TO USE:**

PENPOWER 226H can be effectively utilized as an all-purpose general cleaner and degreaser to remove many different types of soils. The following applications are recommended.

**Hot Tanks** — 6 to 10 ounces per gallon of water

**Steam Cleaning** — 2 to 4 ounces per gallon of water

**Pressure Washers** — ½ to 1 ounce per gallon of water

**Manual Cleaning** — 1 to 2 ounces per gallon of water; heavy soils use at 3 to 6 ounces per gallon of water

**In-Place Circulation Cleaning** — ½ to 1 ounce per gallon of water

PENPOWER 226H is also well suited for HEAVY-DUTY CLEANING. Oil spillages, black tire marks and grease stains are easily removed with a 3 to 6 ounces per gallon of water solution of PENPOWER 226H. To achieve maximum cleaning efficiency, PENPOWER 226H should be pre-dissolved in the holding tank. Solution can then be poured or flooded over the area. Allow five minutes for the cleaning solution to work on the soils. Use floor scrubbing machines, sweep brooms or mops to brush into surface. Hose off and flush area thoroughly.

**PROPERTIES:**

Physical Form . . . . . powder  
 Color . . . . . tan  
 Odor . . . . . none  
 pH — 6 ounces per gallon . . . . . 11.6  
 Solubility . . . . . dissolves readily in water  
 Rinsability . . . . . excellent

**IMPORTANT: Before using PENPOWER 226H, always be sure to read and follow precautions and directions for use appearing on the product container label.**
