### GENERAL PRODUCT

# INHIBISOL<sup>TM</sup> OS

## Ozone Safe Cleaning Solvent, Degreaser

#### FEATURES/BENEFITS

#### **Features**

No flashpoint

No residue

High dielectric strength

Very fast drytime

Excellent cleaner

Safe on all metal surfaces when used as directed

#### **Benefits**

Safe to use where ignition sources present

Used to clean electrical motors and parts

One product cleans multiple soils

*Inhibisol OS* is available in aerosol cans, pails and 55 gallon drums

#### **Description**

*Inhibisol OS* Cleaning and Degreasing Solvent is an excellent replacement for 1,1,1 trichloroethane and HCFC 141b. *Inhibisol OS* will remove wax, oils, finger prints, adhesives in precision cleaning operations, both in a production or maintenance application.

#### **Directions for Use**

*Inhibisol OS* is to be used full strength in large or small portable covered dip tanks, and in coarse-spray, wipe or brush applications. Safe for use on all metal surfaces, including aluminum.

#### **Typical Uses**

Electric motors
Textile looms
Small bushings and bearings
Switches
Jewelry
Gauges and meters

#### Note:

Do not use **Inhibisol OS** in pressurized fluid handling equipment containing aluminum or galvanized metal parts. The product may craze or soften certain plastics - pretest before using. Test on rubber surfaces before using. Prolonged contact may cause rubber to swell.

IMPORTANT: Before using INHIBISOL OS, always be sure to read and follow precautions and directions for use appearing on the product container label and MSDS. (Mar04)
