

PENAIR® C5572 RTU

Ready to Use Non-Solvent Exterior Spot Aircraft Cleaner Concentrate for Steam Cleaning Applications

FEATURES/BENEFITS

No VOCs

Near neutral pH

Ready-To-Use

Biodegradable

Dilution of a product on the
MIL-PRF-85570D Type II QPL

MIL-PRF-85570E Type II RTU
QPL (E Revision is in process)

No solvent reporting
requirements

Reduces fire hazards

Leaves a residue-free surface

Eliminates streaking

Non-corrosive to aerospace
metals

Penair C5572 RTU is available in cases
of 12 x 32 oz. spray bottles and 5 gallon
pails. Inquire about other packages.

Description

Penair C5572 RTU is a ready-to-use, environmentally safe, biodegradable, phosphate-free, non-solvent exterior aircraft cleaner. It is suitable for use in cleaning and spot cleaning all painted and unpainted aircraft surfaces. *Penair C5572 RTU* has a near neutral pH that reduces the skin irritation often associated with aircraft wash rack operations. The unique blend of surfactants in *Penair C5572 RTU* effectively reduces the surface tension of water and soil, allowing deposits to be easily rinsed from aircraft surfaces without streaking.

Use Directions

Do not dilute *Penair C5572 RTU* before use. This dilution is intended for use on moderate soils.

Apply *Penair C5572 RTU* with the supplied sprayer. Scrub with melamine pad or cloth, then rinse with fresh water or wipe dry.

Important: *Penair C5572 RTU* is safe for use on all metals. It is also safe for use on acrylic and polycarbonate plastics. *Pretest before use to ensure compatibility.*

Directions for Steam Cleaning Only (Not a MIL-PRF-85570 application)

Light to Medium Duty Cleaning: Mix one gallon of *Penair C5572 RTU* to 40-50 gallons of water in the solution tank. Adjust solution flow to suit specific cleaning requirements.

Heavy Duty Cleaning: Mix two and a half gallons of *Penair C5572 RTU* to 50 gallons of water in the solution tank. Adjust solution flow to suit specific cleaning requirements.

Note: *Steam cleaning is NOT supported under MIL-PRF-85570. This product is safe for use on all metals but should be pretested on sensitive metals under conditions of use to ensure compatibility.*

IMPORTANT: Before using *Penair C5572 RTU*, always be sure to read and follow warnings and directions for use appearing on the product container label, MSDS, and applicable current technical manual.
