

# PENAIR<sup>®</sup> M5571

## Exterior Aircraft Cleaner

### FEATURES/BENEFITS

#### Features

Solvent-based  
Near neutral pH  
QPL to MIL-PRF-85570E  
Type I  
CSD-1 approved  
Low VOCs

#### Benefits

Excellent cleaning efficiency  
Minimizes skin irritation  
Non-corrosive to aircraft metals  
Reduced impact on air quality

*Penair M5571* is available in 5 gallon pails, 55 gallon drums, totes and bulk deliveries.

### Description

*Penair M5571* is a heavy-duty, biodegradable, solvent-based exterior aircraft cleaner. It is suitable for use in cleaning all painted and unpainted aircraft surfaces. *Penair M5571* will eliminate streaking problems and improve aircraft appearance. *Penair M5571* is effective at removing exhaust deposits, cleaning wheel wells and removing hydraulic fluid from wing flap areas.

### Directions for Use

**For Most Cleaning Operations:** Apply *Penair M5571* by coarse spray, mop, sponge, cloth or brush at dilution ratios of 1:1 to 1:10 parts water, depending on the application and soils involved. After allowing a short dwell time, agitation by brush or scrub pad and thorough water rinsing will insure complete penetration and removal of stubborn soil deposits.

**For Regular Cleaning Of Exhaust Track Areas and Wheel Wells:** Dilute 1:2 with water. For particularly oily stains, use in solvent solution 1:1. Apply to surface liberally, preferably with a high-pressure coarse sprayer. After a dwell time of 1 to 2 minutes, agitate with scrub pad or brush where necessary, then hose or pressure rinse thoroughly with large volumes of water.

**For Extremely Heavily Oiled Surfaces:** Use *Penair M5571* concentrated or diluted 1:1 with water.

**IMPORTANT:** Before using *PENAIR M5571*, always be sure to read and follow warnings and directions for use appearing on the product container label, MSDS and applicable current technical manual. (Aug12)
