

**CITRIKLEEN®**

Page: 1 of 8  
 Date Prepared: September 23, 2019  
 SDS No.: 1850

**SECTION 1: IDENTIFICATION**

**Product name:** CITRIKLEEN

**Recommended use:** Cleaning, degreasing

**Physical Description:** Clear amber liquid with citrus odor

**Generic Ingredients:** Water, d-limonene, surfactants, glycol ether, alkanolamine

**Manufacturer:**

Penetone Corporation  
 125 Kingsland Ave.  
 Clifton, NJ 07014  
 800-631-1652 or 201-567-3000

**Business Contact:**

Customer Service  
 800-631-1652 x2602 or 2272  
 Product Safety  
 800-631-1652 x2211 or 2257

**Emergency Phone Numbers:**    **PENETONE 201-567-3000**    **CHEMTREC 800-424-9300**

**SECTION 2: HAZARDS IDENTIFICATION**

**GHS CLASSIFICATION:**

<p><b>Health:</b>          Skin corrosion: 1C          Eye damage: 1          Specific target organ toxicity - single exposure: 3</p>	<p>Skin sensitization: 1          Aspiration hazard: 1  <b>Physical:</b>          Flammable liquid: 3</p>
---	---

**DANGER!**

Flammable Liquid and Vapor.  
 Causes Severe Skin Burns and Eye Damage.  
 May Cause an Allergic Skin Reaction.  
 May Cause Drowsiness or Dizziness.  
 May Be Fatal If Swallowed and Enters Airways.

<b>Precautionary Statements:</b>	
<p><u>Prevention:</u>          Avoid breathing fumes or vapors. Do not breathe mists if inhalable mists occur during use. Use only outdoors or in a well-ventilated area.          Wear protective gloves, eye protection, and face protection. Wash hands and exposed skin thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace.          Keep container tightly closed. Keep away from heat/sparks/open flames/hot surfaces. No smoking.          Ground/Bond container and receiving equipment. Use explosion-proof electrical, ventilating, lighting, and mixing equipment. Use only non-sparking tools.          Take precautionary measure against static discharge.</p> <p><u>Response:</u>  <i>In case of fire:</i> Use dry chemical, carbon dioxide, water spray, water fog, or foam. Do not use solid water stream as this may spread the fire.  <i>If in eyes:</i> Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.</p>	<p><i>If on skin (or hair):</i> Take off immediately all contaminated clothing. Rinse skin with water or shower. A mild soap may be used. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical advice/attention.  <i>If inhaled:</i> Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center, doctor, emergency room or 911 if you feel unwell.  <i>If swallowed:</i> Rinse mouth. Do NOT induce vomiting. Immediately call a poison center, doctor, emergency room, or 911.</p> <p><u>Storage:</u>          Store locked. Store in a well-ventilated place. Keep cool. Keep container tightly closed.</p> <p><u>Disposal:</u>          Dispose of contents/container in accordance with local, regional, and national regulations (see Sections 13 and 15 of SDS for disposal and reporting requirements).</p>

# SAFETY DATA SHEET

CITRIKLEEN®

Page: 2 of 8

Date Prepared: September 23, 2019

SDS No.: 1850

## SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	CAS#	Concentration Wt% (1)
Water	7732-18-5	40-60
d-Limonene	5989-27-5	20-30
Monoethanolammonium dodecylbenzene sulfonate	26836-07-7	1-10
Linear alcohol ethoxylate	68439-46-3	1-10
Diethylene glycol butyl ether	112-34-5	1-10
Monoethanolamine	141-43-5	1-10
Tetrasodium ethylenediamine tetraacetate	64-02-8	1-10

(1) Exact percentages being withheld under trade secret provision of OSHA HCS 1910.1200(i)

## SECTION 4: FIRST-AID MEASURES

### General Description of Symptoms & First-Aid Measures

Most likely work-place exposure routes will be *skin contact* or *inhalation*.

For *skin contact*, typically no immediate effects will be observed. Reddening, irritation, or a burning sensation could develop some time after exposure if product is not quickly washed off. For sensitive individuals, a rash may appear.

*Inhalation* exposure may produce varied effects depending on whether vapor or mist/spray is inhaled (see SECTION 8 for recommended workplace exposure limits). For vapor, typical symptoms would include headaches, dizziness, and drowsiness. In extreme cases, unconsciousness and other central nervous effects may occur. For mist/spray, typical symptoms could include coughing, sneezing, and a tingling or burning sensation in the nose, throat, and lungs.

### Eyes

If in eyes: Rinse cautiously with water for several minutes. If contact lenses present, remove them if easy to do. Continue rinsing for several minutes. Immediately call a poison center, doctor, physician or other competent medical authority for medical advice. Penetone recommends that after any eye exposure and initial treatment a physician be seen immediately.

### Ingestion

If swallowed: Rinse mouth. Immediately call a poison center, doctor, physician or other competent medical authority. Product presents an aspiration hazard. DO NOT INDUCE VOMITING.

### Inhalation

If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center, doctor, physician or other competent medical authority for medical advice.

### Skin

If on skin: Take off immediately all contaminated clothing. Rinse skin with water or shower. A mild soap may be used. Wash contaminated clothing before reuse. Immediately call a poison center, doctor, physician or other competent medical authority for medical advice. If skin irritation or rash occurs: Get medical advice or attention.

### Special Treatment / Other

None

## SECTION 5: FIRE FIGHTING MEASURES

### Flammable Properties

**Classification:** 3

**Flash Point:** 125°F PMCC, 165°F COC

**Autoignition Temperature:** not determined

---

**CITRIKLEEN®**

Page: 3 of 8  
Date Prepared: September 23, 2019  
SDS No.: 1850

---

**Lower Flammable Limit:** not determined **Upper Flammable Limit:** not determined

**Specific Hazards**

Flammable liquid. Can form flammable mixtures at or above the flash point. Although the product is flammable, it is water based and water dilutable and will self extinguish with addition of water.

**Extinguishing Media**

**Suitable:** SMALL FIRE: Use dry chemical, carbon dioxide (CO<sub>2</sub>), water spray or regular foam. LARGE FIRE: water spray, water fog, or foam.

**Unsuitable:** Do not use solid water stream as this may spread fire.

**Protection & Precautions for Firefighters**

**Protective Equipment & Clothing:** Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters protective clothing will only provide limited protection.

**Fire Fighting Guidance:** Cool containers with flooding quantities of water until well after fire is out. Move containers from fire area if you can do it safely. Dike fire control water for later disposal; do not scatter material. Containers can expand and explode under fire conditions due to vapor buildup. Always stay away from containers engulfed in fire.

**Hazardous Combustion Products:** Smoke, fumes, and oxides of carbon, nitrogen, and sulfur.

---

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

---

**Land Spill**

Eliminate sources of ignition. Do not touch or walk through spilled material. Stop leak if you can do it safely. For large spills, dike and pump into properly labeled containers for reclamation or disposal. For small spill, soak up with absorbent material and place in properly labeled containers for disposal.

**Water Spill**

Product forms emulsion with water which may make cleanup difficult. Avoid agitation to minimize emulsion formation. Remove product from water surface by skimming or with suitable absorbents. Put into properly labeled containers for reclamation or disposal. If allowed by local environmental regulatory agencies, you may use a suitable dispersant. Check with local environmental regulatory agencies for reporting requirements.

**See SECTION 8 for EXPOSURE CONTROLS and PERSONAL PROTECTION.**

---

**SECTION 7: HANDLING & STORAGE**

---

**Handling**

Do not handle near heat, sparks, or flame. Avoid contact with oxidizing agents. Use only with adequate ventilation/personal protection (SEE section 8). Avoid contact with eyes, skin and clothing. After handling, always wash hands thoroughly with soap and water. Avoid personal contact with any residue. Dispose of empty containers with care. Empty containers can contain flammable residue and explosive vapors. **Do not cut, weld, or reuse empty container.**

**Storage**

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Do not store near heat, sparks, open flame, or other ignition sources. Do not store near strong oxidizing agents. Do not store in direct sunlight. Avoid storing above 120°F (49°C).

**CITRIKLEEN®**

Page: 4 of 8  
 Date Prepared: September 23, 2019  
 SDS No.: 1850

**SECTION 8: EXPOSURE CONTROLS and PERSONAL PROTECTION**

**Engineering Controls**

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits.

**Personal Protection**

Inhalation A respiratory protection program that meets OSHA's 29 CFR 1910.134 or ANSI Z88.2 requirements must be followed whenever workplace conditions warrant respirator use. Use of an organic vapor mask or respirator is recommended.

Skin Wear chemical resistant gloves such as: rubber, nitrile, neoprene, or latex when skin contact is possible. Protective clothing including gloves, apron, sleeves, boots, head and face protection should be worn depending on how the product is used. PPE should be cleaned thoroughly after each use.

Eyes Penetone recommends always wearing safety glasses as a minimum in any workplace. Conditions may warrant the use of chemical goggles and possibly a face shield. Consult your standard operating procedure or safety professional for advice. Use protective eye and face devices that comply with ANSI Z87.1-1987.

**Additional Remarks**

Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the hazards and/or potential hazards that may be encountered during use.

**Occupational Exposure Limits**

<u>Component Name</u>	<u>Source</u>	<u>Value</u>	<u>Type</u>	<u>Notation</u>
d-Limonene (1)	ACGIH	20 ppm	TWA	dsen; A4
	NIOSH	100 ppm	TWA	
	OSHA Z1	100 ppm	TWA	
Monoethanolamine	ACGIH	3 ppm	TWA	
		6 ppm	STEL	
	NIOSH	3 ppm	TWA	
		6 ppm	STEL	
	OHSA Z1	3 ppm	TWA	

(1) No OEL has been established for d-limonene. Value given is for turpentine which has same molecular weight and similar structure.

**SECTION 9: PHYSICAL & CHEMICAL PROPERTIES**

**Appearance:** clear amber liquid

**Odor:** citrus

**Odor Threshold:** not determined

**pH:** about 10

**Melting Point / Freezing:** about 30°F

**Boiling Point / Boiling Point Range:** about 212°F

**Flash Point:** 125°F PMCC, 165°F COC

**Evaporation Rate:** equal to water

**Flammability:** not applicable

**Lower Flammable Limit:** not determined

**Upper Flammable Limit:** not determined

**Explosive Properties:** not applicable

**Vapor Pressure:** equal to water, about 17 mm Hg @ 20°C

---

**CITRIKLEEN®**

Page: 5 of 8  
Date Prepared: September 23, 2019  
SDS No.: 1850

---

**Relative Vapor Density:** equal to water  
**Relative Density:** 0.98  
**Solubility (Water):** forms emulsion (stable for one to 12 hours)  
**Partition Coefficient (K<sub>ow</sub>):** not determined  
**Auto-ignition temperature:** not determined  
**Decomposition temperature:** not determined  
**Viscosity:** 10 to 30 centipoise at room temperature

---

**SECTION 10: STABILITY & REACTIVITY**

---

**Reactivity**

Product is stable and only reactive under extreme conditions (very high heat/pressure) or in the presence of specific incompatible materials (see below). If strong acids or bases are added, heat will be generated which could cause splattering.

**Chemical Stability**

Product is stable.

**Hazardous Reactions**

None known. Hazardous polymerization will not occur.

**Conditions to Avoid**

Flammable liquid. Do not store near sources of heat, sparks, open flame, or other ignition sources.

**Incompatible Materials**

Strong oxidizing agents.

**Hazardous Decomposition Products**

Smoke, fumes, and oxides of carbon, nitrogen, and sulfur.

---

**SECTION 11: TOXICOLOGICAL INFORMATION**

---

**Product Summary**

Product is corrosive to skin, eyes, and other tissue. Product may cause a skin rash in sensitive people. Mists can be corrosive to the eyes and respiratory tract. Vapor concentrations above recommended exposure levels may cause headaches, dizziness, drowsiness, unconsciousness and other central nervous system effects.

**Acute Toxicity:**

**Oral:** Rats, LD50 >3,000 mg/kg (estimated using additivity formula)

For a very similar product:

**Dermal:** Rabbits, LD50 > 2.0 g/kg. 24 hour exposure produced irreversible skin damage.

**Inhalation:** Rats, 1hr, 199 mg/l, non-toxic per CFR 16.1500.3. No mortalities at 14 days. No macroscopic changes of internal organs.

**Skin Corrosion/Irritation**

For a very similar product:

Rabbits, Draize, primary skin irritation scores of 7.9 and 8.0. Consider corrosive group III per US DOT definition.

**Serious Eye Damage/Irritation**

No data available. Based upon skin tests of a very similar product, product is considered corrosive to the eyes.

**Sensitization - Respiratory or Skin**

d-Limonene may cause skin sensitization.

## SAFETY DATA SHEET

Penetone® Corporation, 125 Kingsland Ave., Clifton, NJ 07014

---

### CITRIKLEEN®

Page: 6 of 8

Date Prepared: September 23, 2019

SDS No.: 1850

---

#### Germ Cell Mutagenicity

For a very similar product:

Ames, salmonella typhimurium, 50 ppm, with and without metabolic activation: both negative. Product not considered mutagenic.

For the components: Various in vivo and in vivo screening tests were all negative.

#### Carcinogenicity

Various studies have shown that d-limonene when fed at very high levels to laboratory animals have resulted in effects on the kidneys, liver, ureter, and bladder. d-Limonene is listed by IARC as Group 3: not classifiable as to its carcinogenicity to humans and is listed by ACGIH as Group 4: not classifiable as a human carcinogen. d-Limonene is listed as an equivocal tumorigenic agent by RTECS criteria.

#### Reproductive Toxicity

No data available.

No effects were seen in male/female rats in a 2 generation reproductive toxicity study of the nonionic surfactant used in this product.

Monoethanolamine has produced effects in the fetus only at levels that were toxic to the parent animals.

Diethylene glycol butyl ether: Did not interfere with reproduction of lab animals. Body weights of newborn animals were decreased. Did not cause birth defects or other effects in the fetus even at doses which caused toxic effects in the mother.

#### Specific Target Organ Effects - Single Exposure

No data available

#### Specific Target Organ Effects - Repeated or Prolonged Exposure

For a very similar product: Rats, one hour, 200mg/l, 2 weeks, found to be non-toxic (product as a whole)

d-Limonene: Repeated dose toxicity: mouse (male/female): NOEL - 1650 mg/kg; LOEL - 3,300 mg/kg

Diethylene glycol butyl ether and monoethanolamine have had effects on the kidney, liver, and blood of lab animals at high feeding levels over extended periods of time.

For the nonionic surfactant used in this product, repeat dose 90 day oral sub-chronic NOAEL in male/female rats was >500 mg/kg/d and >400 mg/kg/d, while a 90 day dermal sub-chronic NOAEL was >125 mg/kg/d for male/female rats.

#### Aspiration Hazard

Based upon available data and comparison to similar materials, if swallowed, may pose a lung aspiration hazard during vomiting. Lung aspiration may result in chemical pneumonitis, pulmonary edema, and damage to lung tissue or death.

---

## SECTION 12: ECOLOGICAL INFORMATION

---

#### Product Summary

Based upon data for a very similar product, product can be considered harmful to aquatic organisms with LC50s generally in the range of 10-50 mg/l. (Acute aquatic toxicity category 3 by European Union classification).

#### Ecotoxicity

For a very similar product:

Rainbow trout: 96 hr LC50 found to be 15, 18, and 34 separate tests

Fathead Minnow: 24 hr LC50 10 ppm

Opossum Shrimp: 96 hr LC50 5 ppm

Brine Shrimp: 48 hr LC50 7-32 ppm; 96 hr LCL 35 ppm, 96 hr UCL 29 ppm

Killifish: 24 hr LC50 35 ppm, 48 hr LC50 19 ppm, 72 hr LC50 18 ppm, 96 hr LC50 18 ppm

Diethylene glycol butyl ether	N230 Glycol ethers			(1)	313		
(1) CERCLA hazardous substance with no assigned RQ							

### NEW JERSEY RIGHT-TO-KNOW INFORMATION

This product contains water (CAS# 7732-18-5), d-limonene (CAS# 5989-27-5), monoethanolammonium dodecylbenzene sulfonate (CAS# 26836-07-7), linear alcohol ethoxylate (CAS# 68439-46-3), diethylene glycol butyl ether (CAS# 112-34-5), and monoethanolamine (CAS# 141-43-5).

### CALIFORNIA PROPOSITION 65 INFORMATION

This product does not contain any chemicals recognized by the state of California to cause cancer and/or birth defects or reproductive harm.

### SCAQMD INFORMATION

Is there a photochemically reactive material present? Yes  
What is the % by volume of photochemically reactive material? About 30  
What is the VOC content? 310 g/l  
What is the vapor pressure of VOC's? 0.14 mm Hg @ 20°C
