

At West Penetone, we understand that the Pulp and Paper industry has its own unique cleaning problems, like “stickies”.

We’ve got a range of products specifically designed to minimize and eliminate stickies and other residues associated with the use of secondary fiber. Our family of alkaline and acid cleaners will make short work of all kinds of residue.

We even provide felt, wire and dryer fabric cleaning systems to make sure you’ll get the most out of our products.

Need solvents and degreasers for general plant maintenance? We’re an industry pioneer and leader in providing water-soluble, environmentally safer solvent emulsion degreasers for virtually any cleaning or degreasing need.

RESEARCH and development...

With over 100 years of manufacturing and product development experience, the West Penetone family of companies has developed and patented a number of products designed to satisfy the needs of its numerous clients throughout the world. Whatever cleaners, degreasers or decontamination products may be required, we offer a broad range of products that meet the highest standards of safety and efficacy.

Concerned as we always are about environmental impact, we have introduced a new line of “green” cleaners and degreasers as well as super concentrated formulas for a dramatic reduction of packaging.

Looking for a product to meet a specific need? Our team of experts can develop products that will answer your requirements.

Implementation of chemical application procedures by our technical team allows you to carry out your cleaning operations while ensuring a safe environment.

Product	Description	Features / Benefits
Penetone CBO-1A	Our low foaming version of Penetone CBO-1 , specifically formulated for paper machine boilouts and felt/wire cleaning.	No flash point, no VOCs, no CA Proposition 65 components.
Penetone CFW4	Penetone CFW4 has been specifically formulated for paper machine felt and wire cleaning. Its detergents promote rapid penetration, removal and rinsing of deposits such as resin, dye, size pigments, slime, clay, starch and fibers.	Safe on all dewatering equipment, excellent for continuous or batch cleaning, cleans on the fly - minimizes machine downtime.
Pensolv L805 Pensolv L805 Aerosol	Developed as a replacement for 1,1,1- trichloroethane, it exhibits cleaning performance at the same level as 1,1,1. Pensolv L805 dissolves grease, fingerprints, oils and flux typically removed by solvent cleaners.	Non-ozone depleting, free of chlorinates and CFC's, fast cleaning, very low residue.
Pensolv L1055	Formulated as a more user friendly replacement for kerosene and mineral spirits. It can be used in large quantities without generating excessive odors.	High flash point-155°F, low vapor pressure, residue free after drying.
Pensolv L1060	Pensolv L1060 is an excellent product choice for a safer and more pleasant to use cleaning solvent. It is a specially refined solvent where many undesirable characteristics of solvent cleaners are eliminated. Pensolv L1060 quickly degreases bearings, mill housings, work rolls, motors and any metal part where solvent cleaning is needed.	Dries to negligible residue, high dielectric breakdown voltage, high 160°F flash point.
Pensolv LoVo L115C	Highly effective in removing a wide spectrum of paper mill soils such as pitch, latex, resins and adhesives. It is designed for use in either continuous cleaning applications or batch cleaning for the removal of "stickies."	Low VOCs, contains no phenols, chlorinated or aromatic solvents, extends wire and felt life, improves sheet quality.
Pensolv LV15	Pensolv LV15 is a 15% VOC specialty product specifically developed for papermachine wire and felt cleaning. It is highly effective in removing pitch, latex, resins, and adhesives.	No transfer of harsh solvent odors to the sheet, low residue, safe on rubber rolls, roll covers, bearing housings, and machine frame.
